Case Studies	3/6
Slide presentations	3/6
List of readings/discussion questions	3/6
Online learning modules	3/6
1-2 day CME course	2/6

Questions:

- Should we focus on systems of care that work and don't work for transitions?
- Do you have resources for transitions outside of CF?
- Should we do more as PPCs to standardize training about Transitions?
- Should training in Transitions be standardized?
- Innovations in this area???
